

STS: Skills, Career Trajectories and Stories

Friday, December 6, 2019

09:30 – 13:00

Institute for Advanced Studies (IHS)

Josefstädterstraße 39, 1080 Wien

The workshop presents an opportunity for current students and recent graduates in STS and related fields to learn about the diverse areas and types of work where their knowledge and skills might be applied. Former STS students now working in science communication, public administration, applied research, and other fields within and beyond academia will share their professional experiences and stories in a “living books” format, providing room for individual questions and in-depth discussion. We are also happy to announce that [Jessica Mesman](#) (Maastricht University), the long-standing coordinator of the *European Inter-University Association on Society, Science and Technology* ([ESST](#)) and its international joint master’s program, will start off discussions with a keynote sharing her perspective on the career opportunities of STS graduates.

Program:

09:30 – 10:45 Keynote Jessica Mesman, Maastricht University

10:45 – 11:15 Coffee Break

11:15 – 13:00 Uhr: „Living Books“ roundtable discussions with STS graduates:

Bernhard Böhm (ETH, Zurich), Laurel Kennedy (NIH, USA), Marlene Lang (formerly RAND Europe, UK), Annina Müller-Strassnig (Uni Vienna), Simone Schumann (Open Science, Vienna), Isabella Wagner (Centre for Social Innovation, Vienna)

If you are planning to attend, please let us know by Friday, Nov 29th, responding to office@sts-austria.org.

This workshop is organized by [STS Austria](#), in cooperation with the STS master’s programs at [Alpen-Adria-Universität Klagenfurt](#) and the [University of Vienna](#).

All welcome - please feel free to share this invitation with interested students and colleagues!
